## **Naperville, IL – NSA U23 Team**

Based on the success of 2009, NSA will again field a U23 team this summer (2010). This opportunity will help prepare current college players and inbound college freshmen for their respective seasons.

Beginning in the end of May, and running through July, the U23 team will provide technical training, fitness, and competitive games by participating in the IWSL women's league. The NSA U23s are a great option for college aged players who want to maintain and improve their level of play over the summer, while having most of their weekends free!

The U23s are a logical progression as an extension of NSA's drive to develop our players and provide them with the tools to reach their goals. NSA is committed to continuing the education and training needed to make our players successful at all levels.

If you are interested in the NSA U23 team, please contact Bonnie Young, NSA Senior Girls DOC, [bonpsu6@aol.com](mailto:bonpsu6@aol.com), 732-221-6891.
